USG Interagency Working Group
Status of FY 11/12 Support Requests

Request inputs (JTIMS)

- Federal (w/in AOR) Organization
- Opportunity/benefit to agency
- Requirement
- Examples
- Must publish event in JTIMS in order for J7 action to be taken (2 years)
- Funding – you pay, they play
- Keep request data unclassified as much as possible

USG Interagency Working Group

Opportunity/Benefit to Agency

- Agencies have limited capacity to support DoD – **sell each opportunity** to participate as a force multiplier for all stakeholders.
- What is the Hook?
- Every exercise is an opportunity to "enhance _____ and DoD engagement". So what does agency participation in your event gain the agency?
- Agency participation needs to be more than reading a script.
- Realism = Meaningful Interagency Participation
- Early involvement planning in Joint Event Life Cycle

USG Interagency Working Group
Opportunity/Benefit to Agency

- Individual fulfilling requirement will have opportunity to work with and learn about how their agency's assigned representatives to the command can influence the COCOM's senior leadership decision process. Individual will also have the opportunity to provide inputs that can improve or increase agency's role in COCOM HQ Staff and Agency relationships.

USG Interagency Working Group
Opportunity/Benefit to Agency

- "Participating agency will benefit from interacting with the participating countries, assisting in building US relationships in the region and assist in fulfilling USG AND agency goals and objectives for the region."

  (Specify like goals and objectives intended to be met by participating)

- "Provide agency reps exposure to host nation commanders and coalition staffs."

USG Interagency Working Group
Request Capability/Requirement

COCOMs/Services should define the *capability* that the requested IA partner can provide during the Joint Event Life Cycle and during exercises.

Who: agency and skill set – what capability

- Participation Expectations: Level of participation / Frequency
- Avoid terms such as Subject Matter Expert. Or at least specify a particular knowledge area. Functionally and geographically specific

What: State the IA partner contribution & benefit: white cell/control group, represent agency equities, collaboration, plan, advise, “act as”, “assist”, “shape”

Why: Include as much of the known scenario as possible in order to give IA partners an idea of what asset may be appropriate for the exercise

Where: COCOM HQ, JTF, staff, remote, JTEN, reach back

USG Interagency Working Group Requirement

- “Replicate real-world interface among DoD and USG entities. Require OEF PRT SME (leader, member, trainer) for Brigade Combat Team training and to act as a consultant to, and assist, the exercise control group with relevant current issues and concerns.”
- “Provide Department/Embassy level REACHBACK support throughout the planning and execution phase. Must have European and Asian regional economic expertise”

Issues

IA currently working to develop training, exercise & experiments strategies.

- Accommodate Interagency interest to participate in DOD exercises.
- Adaptive planning for IA participation not originally requested for support.
- Expect DOD funding to influence IA selection of DOD exercises

Issues

Consider planning conferences in the JELC as an additional opportunity to engage the IA.

- Allows them to inject their equities and shape the exercise to the benefit of both the IA and DOD.
- Fosters professional relationships as a collaborative partner.
- Eliminates under usage of IA participants during DOD exercises
- Direct efforts of contracted role players

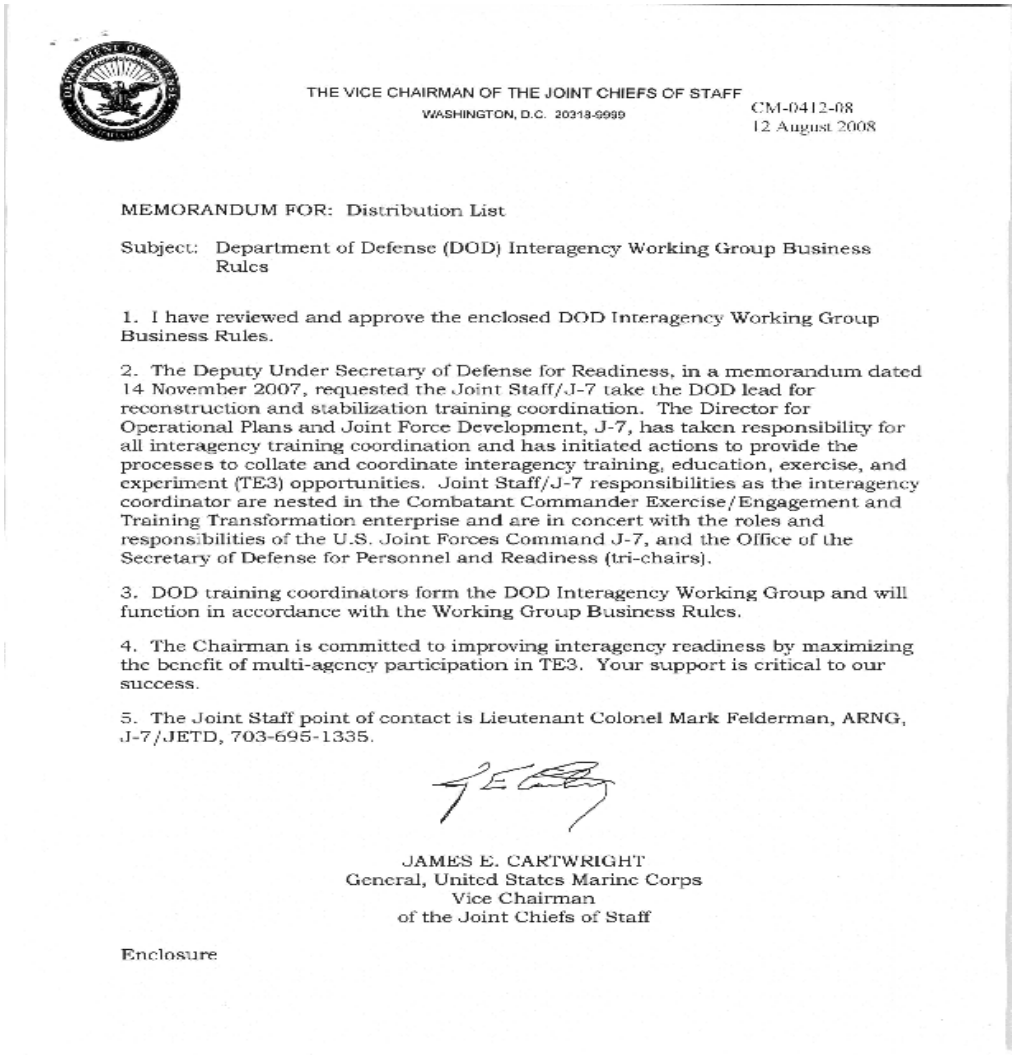
VCJCS Business Rules Approval



THE VICE CHAIRMAN OF THE JOINT CHIEFS OF STAFF
WASHINGTON, D.C. 20318-9999

CM-0412-08
12 August 2008

MEMORANDUM FOR: Distribution List

Subject: Department of Defense (DOD) Interagency Working Group Business Rules

1. I have reviewed and approve the enclosed DOD Interagency Working Group Business Rules.

2. The Deputy Under Secretary of Defense for Readiness, in a memorandum dated 14 November 2007, requested the Joint Staff/J-7 take the DOD lead for reconstruction and stabilization training coordination. The Director for Operational Plans and Joint Force Development, J-7, has taken responsibility for all interagency training coordination and has initiated actions to provide the processes to collate and coordinate interagency training, education, exercise, and experiment (TE3) opportunities. Joint Staff/J-7 responsibilities as the interagency coordinator are nested in the Combatant Commander Exercise/Engagement and Training Transformation enterprise and are in concert with the roles and responsibilities of the U.S. Joint Forces Command J-7, and the Office of the Secretary of Defense for Personnel and Readiness (tri-chairs).

3. DOD training coordinators form the DOD Interagency Working Group and will function in accordance with the Working Group Business Rules.

4. The Chairman is committed to improving interagency readiness by maximizing the benefit of multi-agency participation in TE3. Your support is critical to our success.

5. The Joint Staff point of contact is Lieutenant Colonel Mark Felderman, ARNG, J-7/JETD, 703-695-1335.
